The Adventures of Achiever McBeaver

“VOICES OF REASON”

Quick Opening and Closing Statements for PA System

General Directions:

- 1) The opening statement is **highly** suggested as it prepares the students for the lesson.
- 2) The closing review question is **optional** - but is also **highly** suggested as a schoolwide contest. Teachers can e-mail the answer to the office - or students can bring written notes to the office with an answer for their class. The class with the most answers either correct or sent first to the office over “X” amount of time gets a prize! This is a highly effective method of adding to the schoolwide interest, and it does a great job of **enhancing** student attention. With classes discussing the answer, the question also gives teachers a built in opportunity to review with their kids the main idea of the show.
